

GO ALONG FOR THE RIDE

Those POW! WOW! Hawai'i murals are something else, but what's the story behind the iconic, larger-than-life pieces? Bikeshare Hawai'i had the same question, which is why it launched a free self-guided **BIKI STREET ART AUDIO TOUR** in partnership with the famed artists and app developer Shaka Guide. Learn the history behind the murals, as well as why the artists chose them for the 2019 lineup, as well as a little about the creatives themselves. "We know people already use Biki to explore Kaka'ako, but this collaboration creates a more immersive experience with the POW! WOW! Hawai'i murals, and extends that artist engagement beyond the festival week," states Justine Espiritu, Bikeshare Hawai'i's associate director of programs and community partnerships. To go on your own tour, visit gobiki.org/bikiaudio-tours to download the app and for more information. The free 45-minute tours are available through December 2019.
